COMMENTS FROM THE TOWN MANAGER'S OFFICE

The final transactions of 1963 have been made but the whole picture can not be evaluated for a couple more weeks. I'm afraid the tax collection percentage will not equal the last two years. In some ways it has been an excellent year and in other ways it has been a poor year. Some of the town accounts are overdrawn and some have unexpended balances. I would say the brightest spot as far as the town accounts go, is that there is a very good balance in the track rental account. I will have the final figures on the various accounts in a week or two.

The highway crew has been working on the insulation of the center panel of the town garage. The project was started over a year and a half ago with a major portion of the work completed at that time. The ceiling was lowered on each end of the garage, and now the middle is being done.

The last week of the year has brought a larger number of people to the town office and a greater number of comments and ideas than any other week of the year. Of course, everyone or nearly everyone feels that taxes are too high. I would say the other most mentioned subject was the sewage abatement program that the town must begin in the next couple of years. It might be that some of the interested citizens can get together and lend their assistance to the town.

HANOVER DOWEL CO. DISTRIBUTES \$15,000 IN BONUSES

On December 31 Hanover Dowel Co., Inc., distributed approximately \$15,000 in bonuses to its employees.

The bonuses plus the weekly payroll amounted to over \$21,000. Being paid the week after Christmas is of significance to employees and the surrounding communities, the Company stated.

Included in other benefits are paid holidays and paid vacations. This year a major medical program was added at no cost to employees. This with the existing health and accident and life insurance would appear to make a well-rounded insurance program.

CHAMBER OF COMMERCE TO MEET TUESDAY

The Bethel Chamber of Commerce will meet at the Norseman Inn on Tuesday evening, January 7, for its annual meeting.

This will undoubtedly be an historic occasion for with the election of the new slate of officers, the original Bethel Chamber of Commerce will go out of existence and the new grouping to be known as the Greater Bethel Chamber of Commerce will become the active organization.

Under its new constitution and by-laws adopted at the December meeting, the Chamber will seek to include representative people from the surrounding communities in its membership. With its expanded policy of interests the work of the Chamber will include community projects affecting the larger area described as greater Bethel.

At the annual meeting, an attempt will be made to outline its future aims and set in motion the necessary committees to carry out the aims.

The Chamber hopes a good representation will be present to support the initial kick-off meeting of the Greater Bethel Chamber of Commerce.

ORGAN CONCERT WELL RECEIVED

A very appreciative audience of about 200 persons attended the organ concert at Bingham Hall last Thursday evening.

Frank Flint, at the console, was at his best with a delightfully varied program.

Mrs. Margaret Carter Bean, contralto, as usual, charmed her audience with three well-chosen numbers, accompanied by Frank's sister Carol, at the organ.

The committee in charge wishes to thank each and every one who helped to make the concert the success it was.

Mrs. Patricia Dunn and family are spending the holidays with her parents, Mr. and Mrs. Herbert Kittredge.

AMA URGES CAUTION IN SNOW SHOVELING

Snow shoveling requires a lot of energy and muscle. Pushing a stalled auto out of a snow bank is even more demanding.

Once again, the American Medical Association reminds men of middle age and beyond, especially those who are overweight and lead otherwise sedentary lives, to take it easy in clearing away the snow from the walks and driveways.

If you're in reasonably good health, snow shoveling may actually be good exercise—if you take it easy. This could mean getting up 15 minutes earlier on the mornings of a fresh snow fall, to allow time for leisurely shoveling, with frequent brief rest periods. The frantic, hurried approach to clearing the drive in an effort to get to the office on time most definitely is not good for health.

Most common serious health result of overexertion from snow shoveling is a heart attack. If your physical condition is such that you are already prone to heart trouble, the extra exertion can hasten an attack. If your heart is sound, it likely won't be damaged.

Unless you have had a recent checkup, however, you cannot be certain that you aren't a likely candidate for heart trouble.

Don't be ashamed to invest in a machine that blows or scrapes, aside the snow with the power of a small engine substituting for muscle power. Or don't hesitate to hire the neighborhood lad from down the street to shovel your walks.

It's hard for the American male to accept, but the chances are that the lady of the house is in better physical condition than her office worker husband. An hour or two daily pushing mop and broom keeps midlife in good shape for shoveling.

Snow shoveling can be good for you, if you use a little common sense. Light exercise and fresh air in the winter both are important to maintaining health. Just don't overdo it.
